New Delhi Residence

The project was to design like a boho and classical architectural which is exterior and interior design Bedroom, foyer wall, kitchen & toilet courtayrd also. Concept for this residence was inspired by the boho architecture and style . The idea Today this style translated into Bohemian interiors, famous for elements like layered textures, vintage pieces, and natural finishes. It can also be called "boho chic" or "boho". The Boho style mirrors life by combining colors, objects and patterns from many areas of the world

A Private Residence Renovation project

New Delhi

This was a freelance project where few key areas in a house had to be renovated. The client, Mr. Tomar is a businessman. He wanted his living room to look formal whereas other areas person- alised to his and his family's taste, that included his own Bedroom, family Entertainment room, Dining area and Bar.

View
Living room from the
Entrance Foyer

The main entrance to this adobe has bold yet welcoming vibe. Hunter green color focal wall comprising of 3D wall panels with diagonal lines arranged in a particular fashion establish playful, soothing yet bold statement. A sleek disk console table over-sized and an mirror add muted elegance to the space. A dreamy chandelier adds on to the playful character of the space.

View
Entrance Foyer

View
Living room

The living room is conceived as a formal seating space being able to hold meetings, if necessary. Shades of neutral brown, grey, navy blue, tan & mint paired with brass accents weave a cohesive corporate cum comfortable living room setup.

View
Living room

Nesting tables gives more table space and occupy less area in the living room.

View
Dining Area

The dining space was limited but the experience had to be modern and luxurious. Minimalistic table design in marble and wood paired with upholstered chairs impart sophisticated elegance to the space. A crockery cabinet with full length bevelled mirror seamlessly doubles up the visual volume and adds on to the elegance. A sleek chandelier in polished brass completes the whole look.

View
Seating

In a strong contrast to the other spaces, this casual seating space located on a mid-landing level embodies fresh tribal vibe with wooden armchairs and colourful accent pillows. Blue and white porcelain pots painted in typical Rajasthani style complements the whole scheme and adds freshness.

View
Entertainment Room
(Entertainment Unit+Buffet)

The entertainment room has a contemporary look and feel. Neutral color scheme with occasional splashes of color gives it a sophisticated appearance. Living Coral color is used as the accent color.

The bar area sees a lot of warm & cozy hues. Wood clearly dominates the material palette, as requested by the client. Wood induces a richer, cozy, more intimate and personalised bar experience. Backlit onyx marble on either side adds an understated yet luxurious statement. The dreamy ripple effect in the ceiling, crafted in wood, & paired with a sleek chandelir feels optimistic and blurs everything around it.

(Washing Area)

View
Entertainment Room
(Seating Area)

Amidst contemporary setup, seating corner with a classical touch adds flavour to the entertainment room. An over-sized plant anchors the elements together and unifies the ambience.

View
Master Bedroom

The master bedroom embodies an ethereal character. Warm and neutral tones with excess wood enrich the space and enhances cozyness & warmth. Clean lines add an extra edge to the design.

View
Master Bedroom

A cozy and sophisticated reading corner with an armchair, foot- rest and an elegant floor lamp adds another functional zone in the master bedroom.
